

WALK 1

Distance: 5.96km/3.73 miles

Time: 2 hours

Grade: Moderate

Maps: Ordnance Survey Explorer 255 Landranger 125

Is it for me? This moderate and is just under 4 miles long. The walk is all on good road surfaces, but good walking boots are recommended. It is always advisable to take wet weather gear with you irrespective of the weather forecast as the weather can change quickly.
